**Attachments:** Potential Revisions to Proposed Additions.docx

Hi Tom,

# Attorney Client / Ex. 5

Other issues we are discussing:

## Attorney Client / Ex. 5

--714 listings from the TMDL temperature litigation that we stated in our declaration we would put back into Cat 5.

All other comments from ODEQ were resolved, with corrections made as appropriate. We are focused only on the above,

## Attorney Client / Ex. 5

Let me know if you have other questions. Thanks.

jill

**Subject:** Oregon 303(d) list -- proposed listings

Hello, Tom. As you recall, Region 10 partially approved/partially disapproved Oregon's 2012 list because the State did not assess all data and readily available information for a majority of the waters in the State. The partial disapproval resulted in the Region evaluating existing and readily available information and through that assessment we proposed to list 306 waters as impaired for various numeric and narrative standards. Another 714 waters were proposed to go back as Category 5 due to temperature standard litigation in which the natural conditions standard? Was voided and thus TMDLs applying that standard required amendment. Attached is an excel spreadsheet with the list of proposed listings for your information.

The region took comment on the proposed lists and have been preparing the response to comments
